

Please amend the Specification as follows, referring to the paragraph numbering used in the published application, US 2004/0163169:

Page 1, second paragraph should read: - -

[0002] One means for conserving water are so-called ~~so-called~~ "jet" shower attachments, which are also termed "rotor" shower attachments.

- -.

Amend page 2, second paragraph, as follows: - -

[0009] In order to solve that problem, the invention proposes a hand-held shower attachment having the features disclosed and claimed herein. ~~these features stated in claim 1. Elaborations on the invention are covered by the subclaims.~~

- -.

Amend page 5, last paragraph, as follows: - -

[0026] In the case of the known hand-held shower attachment, the ratio of the length of its handgrip to the maximum lateral dimension of its showerhead is approximately 1.8 to 2.5. The invention proposes that this ratio range from 0.5 to a maximum of unity (i.e., the ratio is between 1:2 and 1:1), in which case, the area of the surface from which jets of water exit may be increased by as much as about 300% for a shower attachment having the same overall dimensions.

- -.
